TERMS AND CONDITIONS

Prices & specifications are subject to change without notice or liability. Considering current changes occurring within the tariff affairs and trade agreements of the United States in 2025, prices will likely fluctuate accordingly without notice or liability.

Prices do not include vehicles, tires, installation, training, fuel surcharges, freight, shipping & handling fees, or optional equipment unless specified. Customers are responsible for off-loading equipment upon arrival. Ask your sales rep for details. Great America financing options now start at \$1,000. A \$25 handling fee will be applied to American Forge & Foundry (AFF), Viking, & Jackson Safety orders under \$250.

BendPak fuel surcharges and DAS fees may apply.* Visit <https://das.bendpak.com/> for more information

Bendpak Note:

Accessorial Charges—Freight Surcharges

Even though free shipping applies to most domestic orders, in some cases accessorial charges may apply for specialized freight services beyond normal pick up, transport, and delivery. All BendPak domestic dealers will be responsible for paying accessorial charges relating to their orders. These surcharges may be added at the time of invoice or after the merchandise has been delivered.

NITRO INNOVATIONS NITROGEN PLASTIC WELDER

DESIGNED BY ISO9001-2008 CERTIFIED ENGINEERS

3 certified engineers designed this machine

1. A Certified **Electronics** Engineer
2. A Certified **Safety** Engineer
3. A Certified **Pneumatic** Engineer

| FEATURES | ADVANTAGES | BENEFITS |
|--------------------------------------|---|--|
| Patented air tank system | Cools off wand for 11 minutes | NO burned up wand valued at \$350 |
| Patented automatic timers | Unit and soldering iron shut off after 60 minutes | Eliminate potential fire hazard and burning up of wand |
| Self generating nitrogen gas | No gas bottles | Saves time / money / No downtime |
| Nitrogen gas off when not being used | Does not waste nitrogen gas | Membrane last longer than competitor's |
| Vinyl Carbonate hose | No dry rot as with rubber/silicone | Longer life / won't kink to restrict air flow or dry rot to potentially leak gas |
| Control Board | Easy to replace in house | NO Downtime and NO Shipping cost |

CRE-Oil™

PENETRATING OIL

Cre-Oil Penetrating Fluid is an old formulation improved with current chemistry modifications that has turned this into the new Gold Standard of penetrating fluids, preferred by professionals. CRE-OIL's low viscosity allows it to creep deep and wick into tight crevices to chemically loosen the bond caused by rust and corrosion.

Professionals cannot risk breaking off a rusted and corroded nut or bolt adding unnecessary time to an otherwise ordinary repair. Spray Cre-Oil on area to be worked on and allow the product to creep into crevices to release rust and corrosion allowing frozen nuts and bolts to be disassembled quickly.

- Active ingredients dissolve and cut through grease, oil, and debris allowing Cre-Oil to come in contact with the threads to quickly loosen rusted and frozen parts
- Low viscosity allows the product to "Creep Deep" into the tightest crevices to release the surface tension caused by rust and corrosion
- Lubricant additive package leaves a lubricating film that aids in disassembly and reassembly, and further protects against corrosion
